Testimonials From Clients

- *“I just want to let you know how much I truly appreciate the hard work and dedication you gave to my case. We are very happy with all you’ve done for us! I would recommend you to anyone. Thanks for making a*

negative situation a positive one.” - Renee M.

- *“Through seven days in the courtroom, I watched as you sincerely gave a part of yourself on behalf of my mother’s memory and lawsuit to us as a family seeking justice. Your manner and openness regarding our case was not only heartening but also demonstrated your true commitment to providing an opportunity for a day in court for those who feel justifiably wronged. You reached out beyond all expectation to consider our feelings, to help us interpret the events of the court, and to make all the individuals involved feel a part of the process. I sincerely appreciate your acquaintance and your efforts in guiding us through the process.” - Dennis B.*
- *“I set up an interview with Andy, he came over and from that day on I trusted him and he became a friend.” - Tony S.*
- *“Mr. Young from the beginning explained that the case was not going to be easy. He was the best I could get. He was prepared and got everything organized letter by letter, all the documents in order. I was really impressed.” - Teresa M.*
- *“First meeting with Andy he made me feel comfortable. When you look at an individual like Andy, he has a passion for helping people. I felt very comfortable knowing that Andy was the choice that I wanted to make. I did not want to seek or look at any other attorneys to help me with this situation. He tried everything necessary to settle the case so that it didn’t have to go to trial. He felt based on the circumstances we should take it to trial. He pretty much kept me protected and told me exactly what was going to happen at trial and some of the questions that might be thrown at me when I was asked questions. I guess that with everything that happened it was just telling the facts and things that occurred. You know what the Jury was there to listen to all of the facts and make a decision on their own. That is basically what Andy set me up to do.” - Anthony V.*
